Meteore Metals Pty Ltd (a wholly owned subsidiary of Conico Ltd) and Barra Resources Ltd ("Barra") entered into a loan agreement on 28 October 2019 pursuant to which Barra will lend Meteore Metals Pty Ltd up to \$500,000 or further amount as agreed, for a term of 3 years ("Term") to fund Stage 3 expenditure on the Mt Thirsty JV Pre Feasibility Study. Interest at 5% per annum calculated daily on amounts drawn down and will be capitalised into the loan annually in arrears and the loan may be repaid early in cash at Conico's election.

The loan must be repaid:

- (a) in full immediately upon the occurrence of a prescribed event of default under the loan agreement;
- (b) if, Meteore Metals Pty Ltd transfers its interest in the Joint Venture, or there is a trade sale by or change of control of Conico or Meteore Metals Pty Ltd, in full within 14 days of the relevant event occurring;
- (c) if the final LME Cobalt Price on a day on which the London Metal Exchange is open for trading (Trading Day) is greater than or equal to US\$60,000 per tonne for 15 consecutive Trading Days at any time during the Term, in full within 90 days thereof (unless Conico (or any of its subsidiaries, including Meteore Metals Pty Ltd) has been unable, despite use of reasonable endeavours, to raise an amount equal to the aggregate of \$1,000,000 plus the outstanding amount of the loan and all accrued interest ("Minimum Capital Amount") prior to the expiration of this 90 day period);
- (d) if the aggregate net amount of any and all capital raisings conducted by Conico (and its subsidiaries) during the Term is greater than \$1,000,000, in full or (if a lesser amount) in part by an amount equal to 20% of such Conico capital raisings above an aggregate of \$1,000,000, within 7 days of receipt of cleared funds;

in full at the end of the Term, if the loan has not already been repaid, provided that if Conico has not raised more than the Minimum Capital Amount and repaying the loan would see Conico's cash balance fall below \$500,000, Meteore Metals Pty Ltd may, at its discretion, cause the loan and accrued interest (or part thereof) to be repaid in Conico shares at a 10 day weighted average price.

8.7 Estimated quarters of funding available (Item 8.6 divided by Item 8.3)	1.5

8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

Answer: Conico does not expect the current level of net operating cash flows will continue. The level of net operating cash flows in the June 2020 quarter was high due to increased expenditure due to completing the Mt Thirsty JV Pre-Feasibility Study (PFS). As announced on 20 February 2020 (ASX Announcement - Mt Thirsty Cobalt Nickel Pre Feasibility Study), the PFS has been completed and direct project expenditure will now revert to a minimum whilst the partnering strategy is being pursued.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Based on the current cash being used in operations, Conico has sufficient cash for the time being and is not currently proposing to raise further cash to fund its operations.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes, Conico believes it will be able to continue its operations and to meet its business objectives as its net operating cash flows have reduced significantly.
