## CONICO MOBILISES FOR GREENLAND EXPLORATION

### Ryberg + Mestersvig Exploration Update

Conico Ltd (“**Conico**”, “CNJ” or “the Company”) is pleased to announce that contractors and personnel are mobilising Thursday for the commencement of the 2020 field season at the Longland Resources Ltd’s Ryberg and Mestersvig Projects, over which **Conico** holds a conditional agreement to acquire 100% (see **Conico ASX announcement 29 July 2020 for more comprehensive details**). Access is via ship from Reykjavik and twin otter planes from Isafjordur.

As set out in the accompanying presentation, the following activities are imminent;

- **RYBERG:** Electromagnetic + IP Surveys + surface sampling at the Sortekap gold project and the Miki Fjord: Ni-Cu-Co-PGE-Au
- **MESTERSVIG: Pb-Zn:** Gravity survey

The objective of the field season is to gather high resolution geophysical data across all projects and to collect mineralised samples for metallurgical test work studies. Personnel are currently in Reykjavik, Iceland making final preparation prior to departure for Greenland. All activities are proceeding as per design and are unaffected by Covid-19 travel restrictions.

#### **FORWARD-LOOKING STATEMENTS**

This announcement contains forward-looking statements that involve a number of risks and uncertainties. These forward-looking statements are expressed in good faith and believed to have a reasonable basis. These statements reflect current expectations, intentions or strategies regarding the future and assumptions based on currently available information. Should one or more of the risks or uncertainties materialise, or should underlying assumptions prove incorrect, actual results may vary from the expectations, intentions and strategies described in this announcement. No obligation is assumed to update forward-looking statements if these beliefs, opinions and estimates should change or to reflect other future developments.
